**IB Summer Programmes in one of the
best established IB Schools in the world!**

Summer Workshops for Experienced IB Teachers

Oxford 2003

This brochure gives information about the St.Clare's, Oxford Summer Workshops for Experienced IB Teachers, authorised by the IBAEM office.
For IB students, please see our [IB Easter Institute](#) and [IB Summer Institute](#) brochures.

St.Clare's, Oxford Summer Workshops for Experienced IB Teachers provide study opportunities for teachers working with IB students. We offer the full IBO workshops, plus Keynote Speakers for each subject, and other additional features. We are also pleased to offer our St Clare's, Oxford *Optional Enrichment Programmes* as extras to add to your IBO workshop, should you want to stay in Oxford longer. Both the full IBO workshops and the extra St. Clare's, Oxford *Optional Enrichment Programmes* draw on the resources of the great academic tradition of Oxford, and use the surroundings, where appropriate, to enhance the workshop experience (e.g. entrance to the Bodleian Library can be arranged).

Course 1
Sunday 22 to Wednesday 25 June

- English B
- Chemistry

Course 2
Sunday 29 June to Wednesday 2 July

- History (Modern European and Americas Options)
- Economics
- Business & Management

The Aims of the Full Summer Workshops for Experienced IB Teachers are:

- To provide curriculum support for teachers - interpretation and implementation of the syllabus content, structure and assessment requirements.
- To clarify and to provide hands-on experience and practice of IB exam marking and preparation, Extended Essays and Internal Assessments.
- To discuss and explore aspects of teaching and learning strategies and methodologies.
- To provide a forum for teachers to share ideas and experiences of successful and innovative teaching and learning practices, course content and concepts.
- To introduce and review up to date printed, electronic and visual resources and their uses in teaching and learning practices.

Methods of Delivery:

- A small group of participants (up to 20) will enable the leaders to share their expertise and knowledge in an open, informal, supportive and highly professional manner. Discussion, involvement and questions will be encouraged.

The Leaders of the Workshops:

- All our leaders are IB Approved, highly qualified and experienced IB Workshop leaders with many years of experience in leading workshops throughout the world.

The TOK Session:

- This session aims to explore ways in which mutual links based on critical thinking between individual subjects and TOK can be developed and implemented in teaching. A specialist TOK Workshop Leader will run this session.

Keynote Speakers:

- Special speakers for each subject area - further details on the website.

Optional Enrichment Programmes

The full Workshop for Experienced IB Teachers plus St Clare's Extras

Aware that it is not every day that you might get the chance to come to Oxford, we want to offer not just the excellent Workshops for Experienced IB Teachers, with the key note speakers and extras which we have already added to those courses, but also the opportunity to come for slightly longer, and to explore more of what we have to offer. We hope that these *Optional Enrichment Programmes* will be particularly attractive to teachers who might have travelled from further away to join the workshops, but everyone is welcome!

Optional Enrichment Programmes

includes all the workshop **PLUS** the extra programmes

Please note that the Extra Options are not part of the IBO Authorised Course, and are available only at St. Clare's, Oxford

After the full IBO workshops, the *Optional Enrichment Programmes* give you two further choices. We have a full cultural programme, including garden and stately home visits, theatre and music. Alternatively we have an opportunity to try some of the St Clare's speciality workshops, with more time to explore how to integrate themes such as internationalism and global citizenship into your classes, and how to cope with non-native learners in the subject classroom (our own special programme which we have called Language Through Learning™).

1: Full Summer Workshops for Experienced IB Teachers PLUS Language Through Learning™, Internationalism, & Global Citizenship [22-28 June or 29 June-5 July]

Oxford

- Oxford is a beautiful city with a special atmosphere - it is home to the oldest university in England.
- It has magnificent college and residential buildings, fascinating museums, large green parks, art galleries, and a rich cultural life.
- It is also a modern city with excellent shops, cinemas, theatres, restaurants offering all kinds of cuisine, cafés, bars, sports centres and night clubs.
- Oxford is in the centre of England, surrounded by peaceful countryside but also close to many places of interest - Bath, Stratford, Windsor, London (1-1.5 hours away by bus or train) and London's Heathrow airport.
- Oxford is a small (120,000 permanent residents), safe, cosmopolitan city with all the advantages of larger centres.
