Why choose this program

Discover Oxford – the most famous, international and historic university city in England.

Learn about **comparative and multicultural education** while you gain **practical experience in a local UK school**.

Blend your **education classes** with a **wide choice of academic subjects** with space in your study program for independent travel.

Live with students from around the world as you learn in **small interactive classes** and one-to-one tutorials.

Explore Oxford, London and the UK through our rich, varied program of activities and excursions.

Our **friendly supportive college** is in a safe, residential area of Oxford and within easy reach of London.

Live in one of our comfortable and modern **residences** or choose our **homestay** option and live with one of our welcoming local hosts.

St Clare's has run a study abroad program for over 40 years, with a **mission to advance international education and understanding**.

Learn about teaching in an English school:

You will be based at a local elementary or secondary school for one full day each week, in a class which matches your preferred age range, specialism or subject focus. We work with innovative, multicultural schools which are centres of teaching excellence – what you see and learn in the classroom will inform the work you complete for your Education courses.

Your studies will take advantage of the academic and cultural resources of Oxford, London and beyond through **field trips** to Blenheim Palace, the Freud Museum, Shakespeare's Stratford-upon-Avon and other sites.

Classes visit the Oxford University museums and explore the colleges that children's authors from Lewis Carroll, C.S. Lewis and J.R.R. Tolkien to Philip Pullman have made famous – all here in Oxford.

Practical classroom experience at a primary or secondary school

What I really love about St Clare's and their classes, is that even though I want to go into education I was able to take a plethora of different classes."

Study Options

You will complete **4 or 5 academic courses** – a group of seminars and a tutorial class. **All classes are small.** Seminars typically have 3-8 students and are capped at 12; tutorials provide more dedicated support and have 1 or 2 students.

We offer Education courses to help Liberal Studies, Education and licensure students complete the requirements for their major. Explore key issues in educational theory, policy and practice, both in the UK and internationally, as you draw on the practical experience of your school placement.

Classes include:

- Multicultural & Philosophical Foundations of Education
- Comparative Education
- Psychological Foundations of Education
- Philosophy and Ethics of Education
- Art for Educators
- Children's Literature

Our classes encourage **engagement**: personal responses to readings, research, presentations and debate led by our **supportive** tutors. Your courses involve **independent study** and will **help you develop** your writing, research and presentation skills.

We also offer a wide range of courses in other subject areas to help you towards your subject specialism or complete your core and electives.

Length	14 weeks tuition
Fall Dates	September - December
Spring Dates	January - May

“If I had to sum up my experience in a few words, I would say inspiring and transformative because I look at learning in a whole new way now, and I'll always carry it with me.”
